

PREFINISHED AMERICAN CHERRY

Maine Traditions

Features

We produce a very appealing grade of Antique Cherry, one that combines the qualities of premium wood with the color contrast and character of coastal wood. The result is a cherry floor not found anywhere else in terms of how it provides class and style to your home.

Cherry is a beautiful hardwood in its clear form, but when combined with the varying color of the heartwood and sapwood together with mineral streaks and small solid knots it speaks out loud with Class.

Cherry has long been thought of as a classy hardwood providing a superb upgrade for a home, if you are looking for a Cherry floor please give this one a look, even if you have a clear grade in mind.
