

PREFINISHED RED BIRCH

Maine Traditions

Features

A signature floor for Maine Traditions, we are very pleased to offer this floor in all of its beauty and charm. The warm and glowing red colors that radiate from this floor will surely increase the beauty, quality, and value of your home in more ways than one.

While producing the floor we sort the lumber for color to ensure that you get the best quality Red Birch floor, with vibrant color and grain patterns that fit your needs for natural tones. The floor is produced using a combination of both the Premium and Coastal grade of flooring together; we call it our Antique grade. By not pulling the Premium grade we are able to provide a very unique floor with both natural character wood as well as the clear wood together. Minimum board length is 10 inches.
