

# **PREFINISHED WHITE ASH ANTIQUE**

## **Maine Traditions**

### **Features**

Often overlooked as a flooring hardwood species, Ash provides one of the hardest North American hardwood floors, and yes it is harder than Red Oak. Modern sophistication is the word that comes to mind when describing our Ash floor.

As with our other Antique grade floors we combine the Coastal and Premium grades together forming a floor with class, quality, and crisp character that comes out from the distinctive Ash grain pattern.

Clear White Ash has a very unassuming look that would be lost if not for the mixture of our Antique grade providing the subtle changes needed to catch ones eye for style. The whites, browns, and cream colors in the Ash floor combine to provide that gentle but stylish look needed in today's earth tone patterns.
