

PREFINISHED WHITE OAK NATURAL

Maine Traditions

Features

The natural grade shows the true character, color and grain patterns of the White Oak species. Utilizing the entire run of Common and Better lumber, we produce this grade to promote better length, some color variation and solid character. The grade will include all clear sapwood, developing heartwood color, solid knots up to 1/3 width of the board, voids 3/8 inch and smaller filled and have minimum board length of 10 inches.
