

PREFINISHED WALNUT ANTIQUE

Maine Traditions

Features

The most well known of the high quality special hardwoods found in North America, Black Walnut brings instant quality to any room. We produce the Black Walnut in an Antique grade to provide that unique look that only a combination of clear or premium grade lumber mixed with some color and character can.

The dark Black of the heartwood mixed with some lighter brown sapwood and character provide contrasts that bring the room together. When you say "*I have a Black Walnut*" hardwood floor everyone instantly knows what Walnut is and what it brings to your home.
