

## Tarkett's Balanced Choice: FiberFloor®

Tarkett® FiberFloor® is part of Tarkett's choice of sustainable solutions, an integrated system that allows for balancing all the competing needs, while making choices that are truly sustainable and work together aesthetically. To learn more, visit [tarkettna.com](http://tarkettna.com).

### People-Friendly Spaces

- Tarkett FiberFloor is FloorScore™ certified for assurance of low-emitting materials and indoor air quality
- Tarkett FiberFloor is easy to clean and maintain. It only requires a neutral floor cleaner and water, which eliminates the need for harsh chemicals required by some floors
- Tarkett FiberFloor's exclusive AquaGuard® protection system provides extra protection against mold and mildew
- Tarkett resilient sheet accessories are certified by the Environmental Choice Program, an independent authority that certifies hard service cleaning products that demonstrate environmental leadership throughout their life cycle and meet stringent standards

### Better Raw Materials

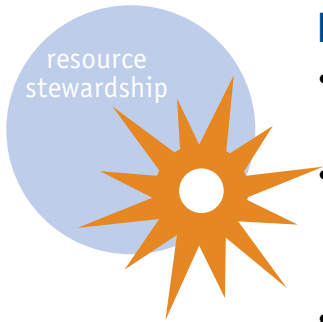

- Tarkett FiberFloor is produced with low or no VOC water-based inks instead of using higher VOC inks
- Tarkett's production site quality management is ISO 9001 certified

Sustainability: an everyday practice, not just an idea.

# Tarkett's Balanced Choice: FiberFloor®

---

## Resource Stewardship

- Tarkett® uses sophisticated equipment in its Farnham, Quebec manufacturing facility that burns most of the potential atmosphere emissions
- Tarkett's resilient manufacturing facility reduced effluent emissions between 2006 and 2007 by: Voc = -25.7%, CO<sub>2</sub> = -14.9%, Nox = -33%, Waste = -6.7%, Landfill = -43%
- Tarkett's resilient manufacturing facility does not emit ozone depleting gases
- Tarkett FiberFloor has high product performance which reduces the replacement cycle and upholds warranties of Lifetime/15-year/10-year
- Tarkett FiberFloor's total product thickness allows for more square feet per shipment compared to other product categories

## Recycling

- Tarkett FiberFloor can be recycled into vinyl tiles
- Tarkett FiberFloor can be installed glueless which allows it to be easily reinstalled and/or reused in a new room

## Balanced Budget

- Tarkett FiberFloor can be installed glueless which reduces installation time and materials
- Tarkett FiberFloor can be installed over existing floors which saves money, time and reduces landfill waste
- Tarkett FiberFloor is easy to repair – cuts down on labor and maintenance
- Tarkett FiberFloor is easy to maintain which reduces replacement cycle
- Tarkett FiberFloor can withstand the effect of moisture better than other flooring categories

Sustainability: an everyday practice, not just an idea.
